

# Scott & Shackleton's Antarctic - Ross Sea Expedition

From **25/1/2027**  
to **15/2/2027**

Ship: **Le Soléal**

From **Dunedin**  
to **Dunedin**

In collaboration with **The Explorers Club**, this unique voyage will feature **Cassandra Brooks**, a marine scientist who has spent the last 15 years of her career focused on Antarctic research and conservation solutions. She was a core member of *The Last Ocean*, a grand-scale media project that helped drive the adoption of the world's largest marine protected area in the Ross Sea.

Embark on an extraordinary adventure to the seldom visited **Ross Sea** from New Zealand and walk in the footsteps of legendary polar explorers on this exciting expedition.

Sailing from Dunedin in New Zealand, start in Enderby Island, part of New Zealand's Subantarctic Islands, and discover the island's spectacular flora and fauna.

While you enjoy some time at sea and take advantage of talks and lectures on board by your team of expedition guides, be prepared to reach the Ross Sea, **the Southernmost sea on Earth**.

Alongside your expedition team, you will have the privilege of exploring this fascinating region and learn all about its history and natural environment, all in one of the most pristine, spectacular settings. Observe the **largest Adelle penguin rookeries in the world**, sail past gigantic icebergs and thundering glaciers during a zodiac excursion, or spot Weddell Seals as they relax or hunt on icefloes.

Depending on weather conditions, you may have the opportunity to visit historic buildings including Sir Ernest Shackleton's hut at Cape Royds, and reflect on the heroic polar journeys of some of the world's most intrepid polar explorers.

On your way back to New Zealand, enjoy some time on Australia's **Macquarie Island**, and its impressive colony of king penguins, as well as the Snares islands and their unique wildlife sanctuary, before disembarking in Dunedin. A truly memorable adventure not many have the chance to experience!

*We are privileged guests in these remote lands where we are at the mercy of weather, ice, tidal and current conditions. Landings on certain sites and the observation of certain wildlife cannot be guaranteed. They vary from day to day, making each PONANT cruise a unique experience. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while complying with the safety rules and instructions imposed by the IAATO. Any disembarkation on the Subantarctic Islands is subject to weather conditions and on obtaining the authorisation of the local authorities. To preserve the wild environment of these islands, the number of visitors is in fact strictly controlled. Wherever possible, we will run Zodiac excursions around their shorelines in order to guarantee the best possible experience for all guests if it is not possible to disembark.*

# Scott & Shackleton's Antarctic - Ross Sea Expedition

## YOUR STOPOVERS :

### DUNEDIN

Embarkation 25/1/2027 From 4:00 pm to 5:00 pm

Departure 25/1/2027 at 6:00 pm

**Dunedin** is New Zealand's oldest city and is often referred to as the Edinburgh of New Zealand. This city of the south, wears its Scottish heritage with pride. The city contains some of the best preserved Victorian and Edwardian architecture in the Southern Hemisphere. The Silverpeaks hinterland to the North West provides a picturesque backdrop and **The Otago Peninsula**, which lies within the city boundaries, has internationally renowned wildlife reserves, including the only mainland breeding colony of Northern Royal Albatross.

### AT SEA

Arrival 26/1/2027

Departure 26/1/2027

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

### ENDERBY ISLAND, AUCKLAND ISLANDS

Arrival 27/1/2027

Departure 27/1/2027

**Enderby Island** is situated off the North Eastern tip of Auckland Island and is the second largest Island in the group. The eradication of introduced species in 1994 has seen a significant increase in the abundance of the native flora and fauna compared to the main Auckland Island. It has become a stronghold for the rare **yellow-eyed penguin** and the primary breeding location of the New Zealand Sea Lion. You will head ashore and have the opportunity to undertake a guided walk on the **Northern Cliffs** track as well as spend time viewing the New Zealand Sea Lion colony. There is also the opportunity to undertake a zodiac tour around the coastline of Enderby Island in search of the Auckland Island Teal and other endemic species.

## AT SEA

Arrival 28/1/2027

Departure 30/1/2027

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

## ROSS SEA REGION

Arrival 31/1/2027

Departure 7/2/2027

The **Ross Sea**, the southernmost sea in the world, owes its name to Sir James Clark Ross, both a naturalist and a Royal Navy officer, who first explored the area in 1841 with *HMS Erebus* and *HMS Terror*. It is bounded on the east by Roosevelt Island and the Edward VII Peninsula in Mary Byrd Land, on the west by Ross Island and the coastal mountains of Victoria Land, and on the south by the **Ross Ice Shelf**, the largest ice shelf in Antarctica located some 320 km from the geographic South Pole. The history and treasures of the world's ultimate marine sanctuary will be revealed during this extraordinary expedition.

You will be able, weather and ice conditions permitting, to discover several emblematic sites in the region. Among the possible stopovers, **Cape Adare**, at the northern end of the **Borchgrevink coast**, home to the world's largest colony of Adélie penguins. We will attempt to reach **Terra Nova Bay** where the Italian and South Korean scientific stations are located to the north and the **Drygalski Ice Tongue** to the south. Dating back at least 4000 years, it extends 70 km offshore from the David Glacier and is 24 km at its widest point. On the **Inexpressible Island**, discover the exceptional survival conditions of a group of six men of the *Terra Nova* expedition, led by Robert Falcon Scott (1910-1913), forced to winter in a cave dug in the ice, today classified as an Antarctica historical monument. On **Ross Island**, follow in the footsteps of the polar explorers Sir James Clark Ross and discover Sir Ernest Shackleton's hut, classified as an Antarctica historical monument. Built at **Cape Royds** during the British expedition *Nimrod* (1907-1909), it proudly stands at the bottom of Mount Erebus. Sixty years earlier, while Captain James Ross was trying to reach the South Magnetic Pole, he discovered **Franklin Island**, located 130 km east of Cape Hickey in Victoria Land. He named it after Sir John Franklin, Arctic explorer and governor of the territory of present-day Tasmania. You will be offered there, a privileged position to observe Adélie penguins in their daily ballet as well as Weddell seals, resting on the shore.

## AT SEA

Arrival 8/2/2027

Departure 10/2/2027

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the

boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

## MACQUARIE ISLAND

Arrival 11/2/2027

Departure 11/2/2027

Long celebrated as one of the wonder spots of the world, **Macquarie Island** is an island of great beauty and outstanding natural diversity, a breeding place for more than 3.5 million seabirds, most of which are penguins. There are **four species breeding** on Macquarie Island: **Royals, Kings, Gentoos and Rock Hoppers**. There are also three types of **fur seals** and one seventh of the world's population of **elephant seals** breeding on the Island. In 1948 The Australian National Antarctic Research Expeditions (ANARE) established its expedition headquarters on Macquarie Island. If time and weather permit, guests will have the opportunity to land ashore and view the prolific wildlife that resides here.

## AT SEA

Arrival 12/2/2027

Departure 12/2/2027

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

## THE SNARES

Arrival 13/2/2027

Departure 13/2/2027

Amongst the **Subantarctic Islands of New Zealand**, the **Snares** have the distinction of being the only forested group without introduced mammals, not even mice. Consequently, it is a remarkable haven for wildlife. The island boasts more nesting seabirds than the entire realm of the British Isles. Over 2 million Sooty Shearwaters breed here in the summer months. Four species of Albatross are listed as breeding on the Snares along with 35,000 endemic **Snares crested penguins**. There are also approximately 1,000 New Zealand fur seals and 500 New Zealand sea lions. Landing on the Snares is prohibited. If time and weather permit, you will have the opportunity to explore the coastal environments and view the prolific wildlife from our fleet of zodiac.

## AT SEA

Arrival 14/2/2027

Departure 14/2/2027

During your journey at sea, make the most of the many services and activities on board. Treat yourself to a moment of relaxation in the spa or stay in shape in the fitness centre. Depending on the season, let yourself be tempted by the swimming pool or a spot of sunbathing. This journey without a port of call will also be an opportunity to enjoy the conferences or shows proposed on board, depending on the activities offered, or to do some shopping in the boutique or to meet the PONANT photographers in their dedicated space. As for lovers of the open sea, they will be able to visit the ship's upper deck to admire the spectacle of the waves and perhaps be lucky enough to observe marine species. A truly enchanted interlude, combining comfort, rest and entertainment.

## DUNEDIN

Arrival 15/2/2027

Disembarkation 15/2/2027 at 8:00 am

**Dunedin** is New Zealand's oldest city and is often referred to as the Edinburgh of New Zealand. This city of the south, wears its Scottish heritage with pride. The city contains some of the best preserved Victorian and Edwardian architecture in the Southern Hemisphere. The Silverpeaks hinterland to the North West provides a picturesque backdrop and **The Otago Peninsula**, which lies within the city boundaries, has internationally renowned wildlife reserves, including the only mainland breeding colony of Northern Royal Albatross.
